School Introduction

Founded in 1986, Texas City University is a private, non-profit institution in Houston, Texas, offering bachelor's, master's, and doctoral programs. It has around 4,000 students and is authorized by the State of Texas to award degrees.

Texas City University offers a wide range of majors, including mathematics, physics, economics, political science, history, psychology, business administration, law, engineering, computer science, and over seventy foreign language courses.

Texas City University aims to meet the demand for modern education by offering up-to-date management knowledge. It partners with institutions worldwide, including in Canada, China, India, Malaysia, and the UK, providing students with unlimited opportunities to become part of the global Texas City University community.
